

Customer Journey Map

Date	20 July 2026
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1: Discovery	Stage 2: Input & Prediction	Stage 3: Decision & Action
Actions	Farmer hears about OptiCrop from an extension officer or online; opens the web app	Enters soil (N, P, K, pH) and climate (temperature, humidity, rainfall) values into the form	Reviews the recommended crop; plans sowing accordingly
Touchpoint	Landing page / home screen	Prediction input form → "Predict" button	Results page showing recommended crop
Customer Thought	"Can this really tell me what to plant?"	"Am I entering the right values?"	"This matches what I expected / gives me a new option to consider"
Customer Feeling	Curious, slightly skeptical	Focused, hopeful	Confident, relieved
Process Ownership	Product/UX team (onboarding clarity)	ML & Backend team (validation, model accuracy)	ML team (recommendation quality)
Opportunities	Add a short explainer/tutorial on first visit	Add input validation and helpful tooltips per field	Show confidence score and top-3 alternative crops, not just one
